

Learning by Questions

What is it?

LbQ is an innovative platform that, through their curriculum-aligned content, students complete questions helping them to learn and practice mastery in a variety of different topical areas across the curriculum with instant teacher and student feedback.

Key Features and Benefits

LbQ helps reduce workload and has thousands of scaffolded Question Sets to support learning in the classroom. It has an easy-to-use interface which allows for learners to be set work, have them complete it and make significant progress from working through the questions. Data is shared to the teacher to support next steps and interventions.

Who is it aimed at?

LbQ contains content relevant for Primary teachers with Question Sets for English, Maths and Primary Science. There are also Question Sets for KS3 and KS4 Maths, English, Biology, Chemistry and Physics.

How does it help?

There are significant resources which will save teachers time without the need to curate, create and mark, thus workload is reduced. LbQ have significant numbers of KS2 SATs preparation tests and resources too.

Summary

LbQ is a multi-award winning platform which has an innovative pedagogical approach which is reducing teacher workload, improving outcomes for learners and teachers and is worthy of significant consideration for use in supporting learning and teaching in your school.

Feedback from Teachers

91% of teachers using LbQ say that their students are achieving greater academic progress using LbQ.

94% of teachers using LbQ say their workload has reduced due to using LbQ
